

the World's Greatest Secret!

"**Everyone** believes the world's greatest lie..." says the mysterious old man. "What is the world's greatest lie?" the little boy asks. The old man replies, "It's this: that at a certain point in our lives, we lose control of what's happening to us, and our lives become controlled by fate. That's the world's greatest lie."

- An excerpt from "The Alchemist" by Paulo Coelho. A fable about following your dreams.

Do you believe you have no control over your life? Are you who you are today, by choice or by fate? Will a change in your actions create a change in your life? Many people have given up on their dreams... they say, "Dreaming is only for the rich. When you have money, you can dream. When you have no money, don't dream."

~The Secret to Living Your Dreams~

For your dream to stay alive, you have to act on it. It's like a fire that grows brighter and stronger if you fan its flames and keep adding wood. If you leave the fire alone, never doing anything to keep it alive, it will burn itself out. When you fail to act on your dreams, they die.

It is with great enthusiasm and a sincere desire to help you fan the fire of your dreams that Jerky Direct invites you to experience the power of your profession.

TEAMWORK IS WHAT KEEPS THE DREAM ALIVE

Milton Hurley

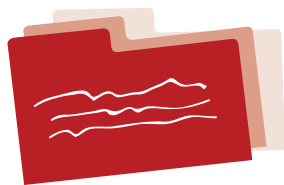

My name is Milton Hurley and I would like to tell you how Jerky Direct is changing my life. I live in the state of West Virginia. When most people hear of my state, they think of the "Almost Heaven" song by John Denver and they think of the coal fields. Coal mining is the big thing here and has been for many years. I went into the mines as soon as I graduated from High School at the age of 18. I have been in the mines for 29 long years. The coal mines have given my family and I a good livelihood but I have spent most of those 29 years away from my family missing all that quality time with them.

When I discovered Jerky Direct, I saw that I could retire from the mines early while my health would still allow me to have the good quality of life that I missed all those years with my wife and sons. That is my main motivation in working this great business – To retire early!

Folks, I got into Jerky Direct at the request of a friend and my family and I loved the jerky. But once my wife and I looked a little deeper into the company, I learned about the people involved and we knew this was the real article. As low as \$12 to join and you could place distributors where it helped everyone and not just a few.

We formed a group and now we are over 100 distributors strong. We are the Super 6 Team! We joined in April of 06 but did not see the light until June – 2 months later. The team is all about reaching our goals together, helping everyone each step of the way. With the people of Jerky Direct and my Super 6 Team, we are changing lives one step at a time. They are strong, solid steps built on a strong foundation. We are one, big family working together.

I would like to thank Jerky Direct for giving us this opportunity and my Super 6 Team for showing me a better way.
